Echinocactus

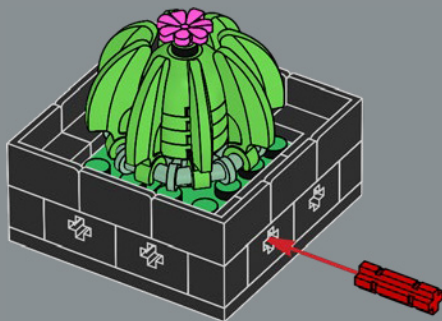

I cactus, tra cui l'*Echinocactus*, un esemplare di forma globosa, possono vivere da 10 a 200 anni!

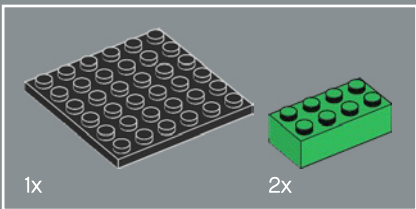

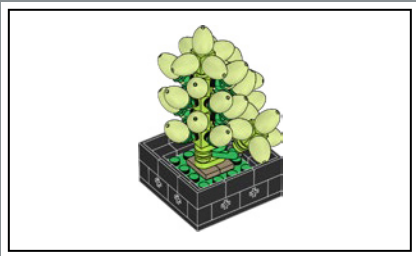

E scommettiamo che le piante grasse LEGO® possono battere questo record!

Ova di dinosauro?
Sì, le foglie verdi e carnose della succulenta *Sedum burrito* sono state realizzate con elementi comunemente usati nei set LEGO® come uova di dinosauro.

Cavalieri delle succulente
L'*Echeveria* rosso rubino presenta piccoli elementi
piramidali sulle punte delle foglie che sono apparsi
per la prima volta come elementi di dettaglio nei
set LEGO® NEXO KNIGHTS™.

Echeveria rossa (*Echeveria purpurorum*)
Il rosso è il colore dell'amore. Il prossimo San
Valentino dimentica le rose e regala invece
un'Echeveria rossa LEGO®!
