MICKEY & MINNIE MOUSE MOUSE

THE WORLD'S FAVOURITE MICE

A MIGHTY PAIR

Mickey Mouse made his public debut in Walt Disney's 1928 animated short *Steamboat Willie*, playing the role of a jolly riverboat pilot whistling at the helm. Two and a half minutes later, in the same film, Minnie Mouse made her own debut as a passenger rushing to board the boat. With a little help from a cargo crane, both mice finally met on deck – and they've been inseparable ever since. *Steamboat Willie* is a work of incredible historical significance – it was the first Disney cartoon to feature synchronised sound and a fully post-produced soundtrack – and will be remembered for generations as the film that introduced Mickey and Minnie to each other, and the world.

BEAUTIFULLY SIMPLE

Mickey Mouse's design (and by extension Minnie's) is remarkably simple – basically, a set of circles. This allowed Walt Disney and designer Ub Iwerks to produce cartoons at lightning speed: up to 700 drawings in one day!

*Mickey and Minnie
appeared together in
70 of the 129 original
Mickey Mouse cartoons.*

MICKEY AND MINNIE

ARE

A GREAT PAIR

... SO SWEET ...

MICKEY IN WALT DISNEY'S WORDS

*|| I hope we never lose
sight of one thing
– that it was all
started by a mouse. ||*

ON MICKEY'S POPULARITY

"Mickey is so simple and uncomplicated, so easy to understand, that you can't help liking him."

ON DREAMING UP MICKEY ON A TRAIN RIDE HOME

"Out of the trouble and confusion stood a mocking, merry little figure, vague and indefinite at first. But it grew and grew and grew, and finally arrived – a mouse. A romping, rollicking little mouse... By the time my train had reached the Middle West, I had dressed my dream mouse in a pair of red velvet pants with two huge pearl buttons. I had composed the first scenario and was all set."

NOTES FROM THE DESIGNER

Ollie Gregory – LEGO® Disney Designer

FROM IDEA TO SHELF

I want to design things that I'd like to put on my shelf, so I always visualise people's homes when I work. How does the set integrate into someone's study or sitting room? That's why we went with the 'classic' Mickey design, with his iconic silhouette and colour palette.

MY FAVORITE BITS

I really like that we're using the classic LEGO® space helmet for Mickey's nose. There are a few Easter eggs like that, Mickey's shorts (which are barrels) or his mouth (a wheel arch) to name a few. We also developed this great new tubular shape for the arms and legs to capture the original animation style of those early Disney shorts.

THE TRICKY PART

The biggest challenge we faced was the weight distribution, because Mickey carries most of his weight in the head and the body. The model needed reinforcement in the legs, feet and base to get him to stand right. That was a mini feat of engineering for us.

Lauren Cullen King – LEGO® Graphic Designer
Yoel Mazur – LEGO Element Designer
